

PC Build – Detailed Specifications for Ghost Machine

Graphics Card:

GeForce RTX 5070 VENTUS 2X OC 12GB – Triple DisplayPort, HDMI, PCIe 4.0

The RTX 5070 brings next-generation performance for 1440p and 4K gaming, powered by NVIDIA's latest architecture. With 12GB of GDDR6 memory, support for ray tracing and DLSS technologies, and an efficient dual-fan cooling system, it delivers smooth, high-fidelity visuals and exceptional thermal performance.

Processor:

AMD Ryzen™ 7 9700X – 8 Cores, 16 Threads, 3.8 GHz (Base), 5.5 GHz (Boost), AM5

Based on the cutting-edge Zen 5 architecture, the Ryzen 7 9700X offers elite-level gaming and multitasking performance. With advanced PCIe 5.0 and DDR5 support, it ensures lightning-fast responsiveness for both gaming and heavy workloads.

Motherboard:

MSI PRO B650-S WiFi – AM5, DDR5, PCIe 5.0, Wi-Fi 6E, 2.5Gb LAN, ATX

Built for AMD Ryzen 7000 Series processors, this motherboard provides robust support for PCIe 5.0 and DDR5 memory. It includes Wi-Fi 6E, Bluetooth, and 2.5Gb LAN for fast networking, and a durable power design for stability during high-performance computing.

Memory:

Patriot Viper Venom DDR5 32GB (2x16GB) 5600MHz CL36 – Intel XMP/AMD EXPO Compatible

High-performance DDR5 memory optimized for gaming and multitasking. With a speed of 5600MHz, low CAS latency (CL36), and full compatibility with Intel XMP and AMD EXPO profiles, it provides excellent bandwidth and stability for next-generation platforms.

Storage:

KingSpec 1TB M.2 PCIe 3.0x4 NVMe SSD – Up to 2400MB/s Read

A reliable and efficient M.2 SSD that ensures quick boot times and fast application loading. With low power consumption and compact 2280 form factor, it is perfect for modern, sleek gaming builds.

Case:

NZXT H9 Flow – All Black – Dual-Chamber Mid-Tower ATX Case

A premium dual-chamber mid-tower with exceptional airflow, tempered glass side panels, and support for advanced cooling setups. Its elegant black design and

optimized internal layout make it perfect for showcasing high-end components while maintaining low temperatures.

CPU Cooler:

SAMA L40 240mm AIO Liquid Cooler – ARGB Water Cooling, PWM Fans

An efficient 240mm AIO cooler featuring dual quiet PWM ARGB fans and FDB bearings. Provides powerful and silent cooling for high-performance CPUs, maintaining stable temperatures even under heavy workloads, while adding customizable RGB lighting.

Power Supply:

MSI MAG A750BN – 750W, 80 Plus Bronze Certified, Full Modular, ATX PSU

A dependable and compact 750W PSU ideal for gaming systems. Full modular design ensures clean cable management, and the 80 Plus Bronze certification guarantees energy efficiency and reliable power delivery for demanding components.

Note:

If any listed component is out of stock, we will replace it with an equivalent part from a different reputable brand to ensure the same level of performance and reliability.
