

Important Notice – Windows Activation

All of our computers come with **Windows pre-installed**. Depending on the system configuration, we install either **Windows 10 Pro** or **Windows 11 Pro**.

Activation is **not required for normal day-to-day use**. The system will work perfectly fine without activation, including access to apps, games, internet, and full system performance.

Notice Regarding Windows Installation on Our Devices

Each computer includes a **30-day trial period** of Windows (10 Pro or 11 Pro), with full features and functionality available during this time.

After the trial ends, you will see a notification suggesting that you activate Windows with a valid license key. **This step is optional.**

If you prefer a specific Windows version (Windows 10 Pro or Windows 11 Pro), you may **contact us by email before or after placing your order**, and we will install the system according to your preference at no additional cost.

What Happens If You Don't Activate Windows?

You can continue using the system without any performance issues.

The only differences are: - Limited access to personalization settings (for example, changing wallpaper or accent colors)

These are **cosmetic limitations only**. The system will remain fully functional and stable, and no files or programs will be affected.

You may activate Windows at any time in the future if desired.

Shipping & Delivery Information

Free Shipping

We offer **free shipping on all orders within Prince Edward Island (PEI) and across Canada.**

- **PEI Orders:** If you are located on PEI, we will deliver your PC **directly to your home** using our own local couriers. After you place your order, we will contact you by email to arrange a convenient delivery date and time.
 - **Orders Across Canada:** For all other Canadian provinces, orders are shipped securely via **UPS**.
